

Welcome to Emba

Last Updated Friday, 18 January 2008

Corresponding to the needs of the modern society we considered equitable to create our own website, becoming as a result members of the great Internet Community, giving thus the opportunity to the local residents but also the world at large to get to know better the community of Empa.

Further this, we believe that our effort will contribute in some way, in the achievement of the fundamental objective and aim of this Community Council that is not other than offering better service to the public and the upgrade in the quality and in the way of life of each resident.

Finishing I would want to wish a pleasant and enlightening surfing, to the webuser, in our WebSite.

Antonis Nikiforou

Chairman of the Community Council of Empa
